

Otway Gas Project:

PROJECT DETAILS

Location:

Victoria, South Australia

Client:

Technip Oceania

Role:

Sub-Contract Service Provider

Project Overview:

The Otway Gas Project is situated near Port Campbell in Victoria . Planned annual production from the plant is 60 PJ of gas - roughly 10 per cent of Victoria's current gas demand - more than 100,000 tonnes of LPG and around 800,000 barrels of condensate.

Scope of Work:

APTS provided assistance to the project construction team with controlled bolting, commissioning and pre-commissioning activities. APTS also provided valuable Quality support by development of piping and test packs through the use of our unique "Testpacker Database" and project tracking.

Services included:

Hydrostatic Pressure Testing, Pneumatic Pressure Testing, Testpack Development & Tracking, Pre-Commissioning & Commissioning activities, Flange Management, Sensitive Leak Detection and Line Blowing.
