

# HSEQ Policy

**APTS has become the benchmark in the pressure testing and calibration industry.**

**Focused on providing a range of extensive NDT, calibration, and pre-commissioning services to a broad group of industries, APTS has established a reputation for service excellence across key sectors including Energy, Water, Resources, and Defence.**

Through effective leadership, we will continuously strive to be the industry leaders in Health, Safety, Environment and Quality management and performance.

Our success requires shared dedication and active participation by each of us, and a commitment to our Core Values:

**SAFETY** > We will not compromise

**INTEGRITY** > We do what is right

**COLLABORATION** > We work better together

**ACCOUNTABILITY** > We deliver on our promises

**RESPECT** > We value diversity, community & the environment

## **APTS is committed to:**

- Meeting our client's requirements and striving to exceed service delivery expectations.
- Providing a safe and healthy workplace where employees are supported and are not exposed to harm.
- Preventing pollution and minimising environmental impacts.
- Continual improvement of our people, systems and operational performance.

## **We will achieve our commitments by:**

- Understanding our clients' needs and communicating requirements throughout APTS.
- Complying with legislation, standard, codes of practice and other applicable requirements.
- Living and working by the standards defined by our Code of Conduct.
- Identifying and managing risk through a systematic risk management framework.
- Providing certified management systems and operating within these.
- Developing achieving measurable and challenging objectives and targets at all levels.
- Delivering quality projects safely, on schedule, and on budget.
- Developing and maintaining personnel competencies to meet current and future needs through training and coaching.
- Leveraging the skills and knowledge of the entire workforce through consultation and delegated authority.
- Assessing and understanding our performance through structured review.
- Empowering our people to make decision to create a safe workplace and authorising them to stop work to make a situation safe when needed.
